\* This is ridiculous. The full contract, along with the incorporated RFP response, should be produced before being considered by ZWAC, Council and other Commissioners. The RFP Scope of Work clearly includes the flow control of solid waste, compostables and recyclables, as well as the City requiring all compostables and recyclables having to be given up to City ownership and control. Also, the scope of work allows for City control over what are now commercial accounts serviced by private haulers, composters and recyclers.
