- F. **Rejection of Offers:** The City reserves the right to reject any or all Offers and to waive any minor informality in any Offer or solicitation procedure (a minor informality is one that does not affect the competitiveness of the Offer).

17. **OPPORTUNITY TO PROTEST:** The Purchasing Officer has the authority to settle or resolve any claim of an alleged deficiency or protest. The procedures for notifying the City of Austin of an alleged deficiency or filing a protest are listed below. If you fail to comply with any of these requirements, the Purchasing Officer may dismiss your complaint or protest.
- A. **Prior to Offer Due Date:** If you are a prospective Offeror and you become aware of the facts regarding what you believe is a deficiency in the solicitation process before the Due Date for receipt of Offers, you must notify the City in writing of the alleged deficiency before that date, giving the City an opportunity to resolve the situation prior to the Offer Due Date.

- vi. The protest hearing is informal and is not subject to the Open Meetings Act. The purpose of the hearing is to give you a chance to present your case, it is not an adversarial proceeding. Those who may attend from the City are: representatives from the department that requested the purchase, the Department of Law, the Purchasing Office, and other appropriate City staff. You may bring a representative or anyone else that will present information to support the factual grounds for your protest with you to the hearing.
- vii. A decision will usually be made within fifteen (15) calendar days after the hearing.
- viii. The City will send you a copy of the hearing decision after the appropriate City staff has reviewed the decision.

43. **INDEPENDENT CONTRACTOR**: The Contract shall not be construed as creating an employer/employee relationship, a partnership, or a joint venture. **48. DISPUTE RESOLUTION:**

- A. If a dispute arises out of or relates to the Contract, or the breach thereof, the parties agree to negotiate prior to prosecuting a suit for damages. However, this section does not prohibit the filing of a lawsuit to toll the running of a statute of limitations or to seek injunctive relief. Either party may make a written request for a meeting between representatives of each party within fourteen (14) calendar days after receipt of the request or such later period as agreed by the parties. Each party shall include, at a minimum, one (1) senior level individual with decision-making authority regarding the dispute. The purpose of this and any subsequent meeting is to attempt in good faith to negotiate a resolution of the dispute. If, within thirty (30) calendar days after such meeting, the parties have not succeeded in negotiating a resolution of the dispute, they will proceed directly to mediation as described below. Negotiation may be waived by a written agreement signed by both parties, in which event the parties may proceed directly to mediation as described below.
- B. Should they choose this option, the City and the Contractor agree to act in good faith in the selection of the mediator and to give consideration to qualified individuals nominated to act as mediator. Nothing in the Contract prevents the parties from relying on the skills of a person who is trained in the subject matter of the dispute or a contract interpretation expert. If the parties fail to agree on a mediator within thirty (30) calendar days of initiation of the mediation process, the mediator shall be selected by the Travis County Dispute Resolution Center (DRC). The parties agree to participate in mediation in good faith for up to thirty (30) calendar days from the date of the first mediation session. Code, Chapter 1, excluding any rule or principle that would refer to and apply the substantive law of another state or jurisdiction. All issues arising from this Contract shall be resolved in the courts of Travis County, Texas and the parties agree to submit to the exclusive personal jurisdiction of such courts. The foregoing, however, shall not be construed or interpreted to limit or restrict the right or ability of the City to seek and secure injunctive relief from any competent authority as contemplated herein.

50. **INVALIDITY:** The invalidity, illegality, or unenforceability of any provision of the Contract shall in no way affect the validity or enforceability of any other portion or provision of the Contract. Any void provision shall be deemed severed from the Contract and the balance of the Contract shall be construed and enforced as if the Contract did not contain the particular portion or provision held to be void. The parties further agree to reform the Contract to replace any stricken provision with a valid provision that comes as close as possible to the intent of the stricken provision. **CITY OF AUSTIN  
SCOPE OF WORK  
ORGANICS PROCESSING SERVICES PROGRAM  
SOLICITATION NUMBER: RFP 1500 SLW0509REBID**

**1.0 PURPOSE**

The City of Austin ("City") seeks proposals from qualified Contractors that specialize in composting organics and have integrated solid waste management programs that place a high priority on customer service and the diversion of waste from landfill disposal. Contractors should have demonstrated significant innovative results through their composting program development, implementation, and operations. Contractors should also be able to provide complete organics processing, sorting, composting, marketing services and detailed data reporting to support the City's expanding residential curbside organic materials collection program and have a processing facility no more than 30 miles from City Hall.

The City reserves the right to select one or more Contractors based on each Contractor's level of experience, qualifications, diversion methods/rates, organics processing and contamination removal methods utilized, capacity of facility, location, fees, and the overall best interest of the City.

**2.0 BACKGROUND**

In 2012, the City began a curbside residential pilot organics program utilizing City or customer supplied carts or containers. The purpose of this program is to reduce waste and ensure that yard waste, food scraps, food/oil, and soiled compostable paper can be adequately composted for reuse. The program will help the City achieve its Zero Waste Goals to reduce the amount of waste sent to the landfill by 75 percent by 2020 and 90 percent by the year 2040.

The 2015 annual volume of curbside organic materials (yard waste, food scraps, and food/oil soiled compostable paper) collected in the pilot program were approximately 4,300 tons of materials from approximately 14,500 residential customers. A citywide expansion may include over 210,000 residential customers; therefore, Contractor shall support, in its proposal, their ability to properly accept and process the increase in volumes as the program expands to an approximate increase in annual tonnage to 72,000 tons with full citywide participation. [Note: All tonnages are estimates only, and no guarantee of actual volumes delivered.]

The City collects yard waste, food scraps, food/oil, soiled compostable paper, utilizing City or customer supplied carts or containers.

**3.0 SPECIFICATIONS/ SCOPE OF WORK**

3.1 Facility - Contractors shall furnish a facility or facilities sufficient to handle the volumes of materials that will be collected as the program expands as described below. All skills, manpower, equipment, supplies, utility services, vehicles, transportation and all resources necessary to successfully accept the volume of materials delivered, screening and sorting, processing, marketing, selling, and reporting of all compostable materials delivered to Contractor by the City of Austin per the specifications herein.

3.1.1 The City seeks a Contractor with a facility, where City vehicles can transport and drop-off all compostable materials no more than 30 miles from City Hall.

3.1.2 Any and all facilities/locations used must be fully licensed, permitted and in compliance with all required Federal, State, County, and City regulations. Proof of all compliance may be required from the City at any time during the contract.

3.2 Compostable Materials - The City reserves the right to increase and/or decrease all organic/compostable commodities and volumes at any time during the contract period, and no guaranteed commodities or volumes are to be construed in any way.

- 3.5 Contamination and Reporting
- 3.5.1 In order to determine the volume of contamination, on a semi-annual basis, the City will deliver selected loads, based upon a reasonable sampling of all materials collected by the City, to the Contractor's location, at a predetermined and agreed to date, in order to perform a composition study and audit of the materials. The City will alternate the routes each six month period, but the City will elect the routes for each composition study period.
- 3.5.2 Contractor shall perform the audit of the samplings provided by the City, with City personnel present to record the results. The composition study will establish the contamination versus compostable materials delivered. This study will set the contamination rate for the subsequent six month period that the Contractor will use for all materials delivered.
- 3.5.3 Therefore, all materials delivered will be weighed upon delivery and the only contamination rate that can be used will be from the current relevant audit/study, regardless of actual contamination.
- 3.5.4 At the execution of the agreement, the City will schedule the first samplings to be delivered to the Contractor and used for the first six month period of the contract, within two weeks of the onset of the agreement.
- 3.5.5 Contractors shall not reject a load unless the load can be supported to contain at least 25% contamination by weight. Any claim of 25% or greater contamination in a load must be fully documented and the documentation submitted to the City's Contract Manager, within 24 hours as a Notice of Rejected Load. Upon rejection, the load shall be set aside and segregated from other materials. Contractors shall photograph rejected loads using arrows, markings, and descriptions emphasizing the contaminants. Some form of measurement must be included in the picture to support the rejected load claim [e.g. weight ticket of load as delivered compared to contamination weight]. The City reserves the right to inspect and/or audit any such claim asserted. Failure to provide supported documentation for the rejected load, will disqualify the load from any related contamination fees.
- 3.5.6 Contractors should fully address all methods used to report and screen out contamination, subject to City approval.
- 3.5.7 Contractors shall be solely responsible for the disposal of any and all contaminated materials and shall provide information regarding any facility where contaminated

waste will be disposed, subject to City approval. All disposal facilities must be properly permitted and in full compliance of all regulatory requirements.

- 3.5.8 Contractors shall have all scales calibrated and certified annually to be in full Texas Department of Agriculture compliance and provide the City with State documentation of verification on an annual basis, without prior request from the City.
- 3.5.9 Contractors shall maintain and annually provide the City copies of all necessary licenses, permits, and or registrations for the compost/organics operations, without prior notification from the City.
- 3.6 Marketing and Selling Organic Materials
  - 3.6.1 Contractors shall be solely responsible to process, compost, market, sell, recycle, and/or beneficially reuse all compostable materials received from the City's collection services.
  - 3.6.2 The City may require documentation supporting that all compostable materials, delivered to Contractor(s), are used in an environmentally positive way, and that no reusable materials are burned or disposed of.

**4.0 SITE REQUIREMENTS**

- 4.1 Contractors shall not relocate facilities without permission from the City. Contractor(s) shall provide documentation [ownership, lease, rental agreement] supporting it has and can maintain the same suitable site for the duration of the entire contract, including extensions, should any be exercised at the City's sole discretion.
- 4.2 Contractors shall keep locations open to accept deliveries from the City, Monday through Friday from 7:00 am to 5:00 pm, excluding Thanksgiving Day, Christmas Day and New Year's Day; however, Contractor shall be open for deliveries on the three following Saturdays subsequent to the above listed holidays. The City may require Contractors to remain open longer periods of time in emergency situations or to complete collection routes which are delayed due to unusual circumstances. In those circumstances, the City will notify Contractors by email or telephone to provide additional times and services as needed.
- 4.3 Contractors shall ensure City drivers have easy ingress and egress to access and dump the loads. Facilities shall include no backup requirements, have a minimum of 12 feet wide driveways/delivery paths, and have no steep grades or sharp turns.

**5.0 APPLICABLE PERMITS AND LICENSES**

Contractors shall obtain and maintain all permits, licenses, and/or registrations to perform all services described herein. All services provided in relationship to this RFP, directly and indirectly, shall be in compliance with all laws, ordinances, specifications, rules and regulations for this service as established by the City of Austin, State of Texas, State Board of Health, U.S. Environmental Protection Agency, Occupational Safety and Health Administration, Texas Commission on Environmental Quality, and any other federal, state or local governmental provisions. Contractors are presumed to know what the legal requirements are and shall be solely responsible to maintain all said regulatory requirements and are liable for the failure to do so.

**6.0 FEES, REPORTING AND INVOICE REQUIREMENTS**

  - 6.2.7 Prorated billing for all services that are performed for less than the entire month covered by the invoice. Prorated bills shall note the ending and/or beginning date of the services being charged. The method(s) used by the Contractor to calculate prorated bills shall be subject to the approval of the City.

***DEFINITIONS***

Composting - The process of converting difficult to handle organic materials resulting in a mixture of decayed organic matter used for fertilizing and agriculture.

Compostables - Materials capable of undergoing biological decomposition in a compost site as part of an available program such that the material is not visually distinguishable and breaks down into carbon dioxide, water, inorganic compounds, and biomass at a rate consistent with known compostable materials.

Contaminants - any materials outside the definition of organic/compostable matter included herein and as determined outside the scope of organic and or biodegradable that are commingled in the processing loads to include glass, plastics, metals, and foam products.

Food Waste - all food scraps, including all animal meats, dairy products, grease and bones; paper which has been contaminated with food, fat or grease; and soiled cardboard and paper including paper towels, paper plates, bags, tissue and waxed paper.

Organic Waste - includes food, yard and wood waste, City-approved compostable bags, single-use food service ware, and other organic materials as mutually agreed to by the City and the Contractor.

Wood Waste - any wood or tree limbs over four (4) inches in diameter, unpainted and untreated pallets, lumber, lath and cedar shingles, and other clean wood delivered to the City facilities.

Yard Waste - plant material (leaves, grass clippings, branches, brush, flowers, roots, wood waste, etc.); debris commonly thrown away in the course of maintaining yards and gardens, including sod and a small number of incidental rocks not over two (2) inches in diameter; and biodegradable waste approved for the yard waste programs of the City. May include some human or animal excrement; noxious weeds and soil contaminated with hazardous substances.

Zero Waste - a goal that is ethical, economical, efficient and visionary, to guide people in changing their lifestyles and practices to emulate sustainable natural cycles, where all wasted materials are designed to become resources for others to use. Zero Waste means designing and managing products and processes to systematically avoid and eliminate the volume and toxicity of waste and materials, conserve and recover all resources, and not burn or bury them. Implementing Zero Waste will eliminate all discharges to land, water or air that are a threat to planetary, human, animal or plant health. (As defined by the Zero Waste International Alliance.)

zero waste (lower case) - no waste burned or buried.

Zero Waste Strategic Plan - adopted by the Austin City Council on January 15, 2009 and defined as a Diversion Rate of 90% of the total materials generated within the city limits.
