

Solid Waste & Recyclables Hauler's Resolution

WHEREAS, the City of Austin is considering a franchise ordinance for haulers of commercial waste & recyclables whereby the current annual truck licensing and monthly commercial container fees will be replaced with a franchise fee not to be less than 4% of monthly gross billings for commercial services provided within the City of Austin resulting in significant increases in rates to customers. Moreover, it will establish a franchise system whereby the City of Austin could confiscate the business rights of companies to collect solid waste & recyclables in Austin and will eliminate a company's ability to operate in a competitive free market.

WHEREAS, the undersigned Haulers believe such an increase in rates and the potential elimination of efficient free market competition for commercial waste & recyclables collection services will have a detrimental impact on businesses and non-profit organizations located in the City of Austin.

NOW, BE IT KNOWN THAT THE UNDERSIGNED OPPOSE AND URGE THE CITY COUNCIL TO OPPOSE CITY STAFF'S ACTIONS TO DECLARE THE COLLECTION OF COMMERCIAL WASTE & RECYCLABLES A PUBLIC UTILITY AND REQUIRE COMMERCIAL WASTE & RECYCLABLES HAULERS TO BE SUBJECTED TO A FRANCHISE ORDINANCE REGULATED UNDER ARTICLE XI OF THE CITY CHARTER.
